About Peabody PROMISE

Peabody PROMISE aims to break down barriers to accessing mental health resources, to elevate support for every member of our community, to strengthen the support systems available to our students, families, and educators — and to make a meaningful, lasting impact as we stand against bullying throughout Peabody Public Schools.

The team consists of school officials, city leaders, parents, educators, healthcare professionals, law enforcement, and residents working collaboratively to develop actionable and sustainable solutions.

Several specialized Action Teams have been created and are actively working on education, communication, events, public outreach, policy review, and school-based structures and resources.

Resources

Student Resource & Support Center (SRSC) at Higgins Middle School

- On-site specialized care and referrals to trusted mental health professionals
- Assistance with filling out bullying report forms
- Mental health resources and a variety of informational materials
- Counseling, as well as referrals to external resources when needed

Bullying Reporting Form

Report bullying [here](#) or use the QR code below. Paper forms may be filled out and are available in each school's main office, guidance office, and nurse's office.
